

# COMMUNITY-LED COVID LESSONS TO OVERCOME INEQUITY IN HEALTH CARE

A conversation between AHA and the National Urban League  
[www.aha.org/addressing-covid19-vaccinations-communities-of-color](http://www.aha.org/addressing-covid19-vaccinations-communities-of-color)

## THREE WAYS HOSPITALS CAN HELP PEOPLE GET THEIR COVID VACCINE

Provide answers to questions in real time (hotlines, online question submissions, etc.)

Connect people to the vaccine (transportation, vaccines that go to them, etc.)

Amplify voices of real-people who have been vaccinated (don't be afraid to get creative)

## PLAN NOW FOR THE NEXT HEALTH CRISIS

**Set aside**  
15 minutes

**Write down**  
voices that don't have  
a seat at the table

**Reach out**  
and start a conversation  
with those organizations.

## ACHIEVING HEALTH POST-COVID ISSUES TO START ADDRESSING TODAY

Housing

Education

Jobs

Justice

Many factors beyond clinical care informed the impact of COVID-19. We need to address them now to shift the health experience for communities of color.

The American Hospital Association is expanding on existing alliances and building new collaborative efforts to disseminate and amplify accurate, accessible information to communities most impacted by COVID-19. Find multilingual **resources** to help those disproportionately suffering from COVID-19 get answers to their questions and make an informed decision about the COVID vaccine.

Advancing Health in America
